CRUSHED BENEATH HEAVY STONE WAGON

FELIX DOYLE RECEIVED SEVERE
INJURIES SOUTH OF
TOWN TODAY.

PASSED AWAY THIS AFTERNOON

Pelvis is Broken, Bladder Punctured
and Kidney is
Crushed.

BULLETIN.

Felix Doyle passed away at 3:10
o'clock this afternoon at his home.
He leaves a wife and seven children,
all of whom were at his bedside
when he died.

Felix Doyle, 1803 First street, sus-
tained injuries this morning which
may prove fatal when he fell from a
loaded stone wagon on the Peoria
road south of the city, the heavy
wagon passing over his body. Just
how the accident happened is not
known, for Mr. Doyle's condition is
such that he can talk very little of
his mishap.

He was found lying beside the
road by George Netz, of the firm of
Hart & Netz of this city, who was
driving south in his automobile. He
picked the injured man up and
brought to his home as quickly as
possible and a surgeon was sum-
moned.

Severe Injuries.

The examination conducted by the
surgeon shows that the injuries re-
ceived are very severe and that Mr.
Doyle's condition is critical. The
heavily laden stone wagon, which
contained two cubic yards of crush-
ed rock, passed over his abdomen,
fracturing the pelvis bone, crushing
one kidney and puncturing the blad-
der. In addition there may be other
internal injuries and his recovery is
extremely doubtful, according to the
attending surgeon.

Fell From Wagon.

From the little Mr. Doyle was able
to tell concerning the accident it is
believed he fell beneath the wagon
while leaning forward trying to dis-
engage a line which had become fast.
He was engaged in driving a stone
wagon for Frank Rink, the haul be-
ing from the Judd quarry to the Wal-
lace farm south of the city.

CLARITY WILL GIVE DECISION NEXT WEEK

HAS TAKEN SECOND ST. PAVE-
MENT PROJECT UNDER
ADVISEMENT.

Judge Clarity of Freeport, who
yesterday heard the evidence in ar-
guments in the Second street paving
case, announced at the completion of
the arguments that he would take
the case under advisement, returning
some day next week to give his deci-
sion as to the validity of the proceed-
ings in the case.

OTHER SUPERVISORS ACT.

The board of supervisors of Win-
nebago county will hold a special
meeting to act on the Tice good road
law, for the reason that they fear
that \$700,000 now in the state treas-
ury will not go very far, and they
think that the first to apply will be
the ones who will get the most of the
money.

MANY ENJOYED GOOD

A very large crowd listened to the
excellent concert by the Dixon Ma-

guish.

ANOTHER PATHETIC WAIL FROM STERLING

GAZETTE SAYS PEOPLE THERE
ARE "DISGUSTED" WITH
DIXON.

Sterling Gazette: In return for
for the 3,000 people sent to Dixon
from Sterling and Rock Falls on the
Fourth, Dixon sent nine people to
Sterling and Rock Falls on Wednes-
day, Dixon day, at the local chautau-
qua. This despite the fact that the
Sterling, Dixon & Eastern electric
road offered a round trip fare of 50
cents including a ticket of admission
to the grounds.

People Are Disgusted

As the result of such treatment
from the people of Dixon, residents
of Sterling and Rock Falls are dis-
gusted. This is the first time in re-
cent years that the people of the
two cities have asked for any sup-
port from Dixon and it was confi-
dently expected there would be at
least the semblance of a turnout.
The electric road, which had arrang-
ed the affair, had cars in Dixon for
handling 1000 people. The manage-
ment went to considerable expense in
advertising the affair. As a result it
is not expected that Sterling and
Rock Falls people will, in the future,
go out of their way in assisting Dix-
on in any of her various celebrations.

IRONIM IGNATS IS BETTER TODAY

HUNGARIAN BADLY MISTREATED
BY GEORGE POPE,
IMPROVES.

Ironim Ignats, the Hungarian em-
ployed at the cement plant, who was
badly mistreated by a fellow em-
ployee, George Pope, is a trifle better
today, but is by no means out of dan-
ger. Physicians declare that if his
condition tomorrow is as it is today
he stands a chance of recovery.

DELIGHTFUL DUET

AT CHAUTAUQUA

One of the finest numbers on the
program last evening, given by the
Kate Chase orchestra, was the duet
for two pianos rendered by Miss Ver-
na Hoover of this city and her teach-
er, Prof. Stoddard of Dixon. The num-
ber was a very difficult one and re-
ceived the hearty applause of the au-
dience.—Sterling Gazette.

LORIMER GOES WEST

Hon. William Lorimer and his pri-
vate secretary, Mr. Ward, passed
through Dixon last evening on his
way to Denver. When seen by a
representative of the Telegraph he
refused to discuss any of the issues
of the day. He declared that he was
on a pleasure trip.

DICUS AT MINNEAPOLIS.

Rochelle Herald: G. W. Dicus, the
postmaster at this place, has begun
the erection of a house in Minneap-
olis and Mrs. Dicus will not return
home until it is completed. Mr. Dicus
expects to be engaged in journalistic
work in that city.

26,000 pounds of butter, an average
of 1,000 pounds per day for working
days of the month. In that time they
paid to the patrons of the creamery
over \$5,000.

AN AFRICAN BEAUTY.

Tomorrow evening the Telegraph
will publish as its musical supplement
Arthur Pryor's great two-step, "An
African Beauty," as played by Son-
sa's band. The piece is in Pryor's
own style and is stirring and melo-
dious.

BOARD UNCOVERS MANY MORTGAGES

WOULD-BE TAX DODGERS WILL
SOON HAVE A CHANCE
TO EXPLAIN.

The Lee county board of review,
which has been in session the past
fortnight, has uncovered an excep-
tionally large number of mortgages
which have not been scheduled with
the assessors of the various townships

manding the presence of the would-

THREE DIXON BOYS IN CUSTODY OF U. S.

ARE CHARGED WITH HAVING
TAKEN NEWSPAPERS FROM
THE MAIL POUCHES.

to carry United States mail between
the postoffice and the depots, John
Mahan and Richard Riley, three Dix-
on boys, were arrested late this af-
ternoon by Deputy United States Mar-
shal Hanke of Freeport, charged
with having opened and appropriated
to their own use mail not addressed
to them. Specifically the boys are
charged with having taken newspa-
pers from the sacks consigned to this
city.

Marshal Hanke took the boys to
Freeport this afternoon and will ar-
raign them before United States

which time he will ask that the case
be continued for five days, in order
that United States Attorney Wilker-
son may take charge of the prose-
cution.

DIXON TOOK BIG PART IN SPORTS

WARD MILLER AND MARIGOLD
WERE HEADLINERS
YESTERDAY.

Ward Miller of this city, who has
been on the bench for some time,
was the deciding factor in the Cubs
winning from the New York Giants
and Christy Mathewson yesterday,
his triple in the sixth inning with
two on sending in the two runs and
beating the Giants after they had
won 14 straight games. In addition
to this work Ward copped a single
and saved the game with a startling
catch.

Marigold Won.

Another bit of sporting news to
many Dixon people is found in the
results of the Cleveland races where
Tommy Murphy put Marigold, for-
merly owned by J. W. Hoyle of this
city, across in three straight heats,
winning the Ohio stake, 2:10 trot-
ting race and the big end of the \$5,-
000 purse. Marigold's victory was an
easy one, her best time being 2:07-
3/4.

Exall is Second.

At Mendota yesterday Exall, own-
ed by J. W. Hoyle of this city, took
second money in the 2:18 trot, ten
horses starting. Exall, driven by Bur-
right of Oregon, finished second in
the first two heats and sixth in the
third. The race was won in straight
heats by Charlie B. Best time was
2:17 3/4.

Fannie Shirley Second.

Another Dixon horse was a factor
in the sports of yesterday, Fannie
Shirley finishing second in her race
at Port Huron, Mich. The horse, of
which great things are expected this
year, is owned by Thomas Gaffney
and Michael Blackburn of Dixon.

FREEPORT NEGROES ARE BEING CHASED

DUSKY RESIDENTS ARE BEING
QUIETLY PERSUADED
TO LEAVE.

Freeport, July 11—Negroes are
quietly leaving town, it is reported,
fearing an outbreak because of the
trouble made by a number of the
lawless element of the colored popu-
lation. A quiet campaign, it is said,
is being conducted by the police, who
are urging the negroes to leave town.
Chief of Police Root will neither con-
firm nor deny the report.

It is said that he has been request-
ed to conduct a campaign against the
darkies and that his reason for not
making the report public is that he
fears some of the corporations here
will raise an objection because they
want the colored men to work for
them.

Dixon. Twenty-five members of the
choir were present and before the
regular service gave a sacred concert
under the leadership of Mrs. Lew
Edwards.

Another large crowd was present

DE KALB MOTHER FINDS HER CHILDREN

MRS. PARKER LOCATES SON AND
DAUGHTER AT YOUNG-
TOWN, OHIO.

ABDUCTION WAS SENSATIONAL

"Kiddies" Were Overjoyed to See
Mother and Delighted to
Get Home.

DeKalb, July 11—Evelyn and Ken-
neth Parker, whose sensational ab-
duction by their father had taken some
time ago caused considerable talk here,
have been recovered by their mother
and brought home.

A "tip" from the landlady of the
place where the father had taken the
children at Youngstown, O., several
days ago informed Mrs. Parker of
the whereabouts of the little ones,
and she went there early this week.
While the husband was at work she
went to the house and when she en-
tered there was one of the liveliest
of times.

The "kiddies" were overjoyed to
see their mamma and come home
again. Kenneth said that he "would
never go riding with anyone again"
and that both were glad to be back
home.

Mr. Parker has been working day
and night lately and could not pay
much attention to the children, with
the result that the care of them came
to the landlady. As the little ones
were not very well provided with
clothing the landlady thought they
would be better off with their mother
and so she communicated with Mrs.
Parker.

The mother was overjoyed to get
her children home and they will be
carefully watched in the future.

Real Estate at Auction

One of the Best Lee County Farms to Go Under the Hammer. Having concluded to dispose of my farm lands, and sell them with the least possible delay, I have thrown them on the market and will take what they bring, believing that at least they will sell for a fair price, as it is close to as good a stock and grain market as any in the state, with good school and churches close by. Sale to take place at the residence, one mile north and one mile east of West Brooklyn, Lee County, Illinois, on

TUESDAY, JULY 15TH, 1913

At Two O'clock P. M.

This farm consists of 370 acres of as good producing land as there is in Brooklyn Township, and that means as there is in Lee County. It is capable of being divided into two or three farms, but makes an ideal farm as it is. There are 300 acres under the plow, and 70 acres in a well fenced pasture. The farm is fenced with woven wire, with barbed wire on top, on all division and cross fence. There are 3800 rods of the on this farm, and it doesn't need any more; no tile smaller than four-inch and none larger than ten-inch. There is a good well 378 feet deep, pumped with a 2-horse tread power. There is also a shallow well at the barn that never fails. The barn is 30x60 with 20-foot posts; one corn crib 24x48, with shed 16x28 that connects it with the barn; one crib 24x32; hog house 20x40, new.

The house is a full two story, 14 rooms, cellar 26x36, good well and cistern, lots of fruit and shade trees around house.

This farm is described as follows—Lot No. 20, Northwest Quarter Section 4; West Half of West Half of the Southwest Quarter of Section 4; Southeast Quarter of Northeast Quarter of Section 5; East Half of Southeast Quarter of Section 5; East Half of the Northwest Quarter of Section 8; West Half of West Half of the Northwest Quarter of Section 9; all in Brooklyn Township, Lee County, Illinois.

My tenant, who has been on the farm for ten years, and is one of the best, has a lease for the year 1914 at \$2,000, and I will sell subject to his lease.

TERMS OF SALE.—Thirty-three and one-third per cent of the purchase price to be paid cash in hand day of sale, which amount I will pay interest on at 5 per cent to March 1st, 1914, when balance of purchase price is to be paid in cash, when possession will be given and deed with abstract showing clear title furnished.

If you are interested keep your eye on the date, for this farm will surely change hands at that time. Parties from a distance will be cared for; and the train that arrives at Brooklyn at 8 o'clock that morning will be met.

MEET TONIGHT

The regular semi-annual meeting of the board of directors of the Y. M. C. A. will be held this evening at the association building.

WHEN SENATOR LEWIS

WAS STRUGGLING

Robert Corey, a Washington correspondent, relates this incident in the struggling days of Senator James Hamilton Lewis:

When Lewis was a young man he alternated between being broke and having \$40. In Seattle he was broke. Therefore, strolling along the street and observing a nice young man scowling at a pile of coal, he bowed courteously:

"I presume," said he, "that you wish that coal carried upstairs to your office. I will do it for 60 cents."

"For 50 cents," corrected the nice young man.

"For 60 cents," repeated Lewis urbanely.

"Oh," said the young man. "Get to work."

Lewis carried the coal upstairs. When he concluded his task he discovered that the nice young man had taken the noon train for the east. His partner in the law office paid Lewis 50 cents—firmly. Eleven years afterward Lewis went to congress from Washington. One day he observed the nice young man, then a representative from the Fredonia, N. Y., district.

"Warren Brewster Hooker," said Mr. Lewis, bowing, smiling, lifting his hat with that gallant grace which is his only. "No doubt you do not remember me, but eleven years ago in Seattle—"

"I know," said Hooker. "I remember you perfectly. Here's your dime."

MILITANTS INJURE 11

Postoffice Employees Hurt Following Explosion of Bomb.

Infernal Machine Was Addressed to Redmond—Suffragettes Attacked Following Blast.

Dublin, July 11.—The most serious outrage of the many deeds of violence committed by militant suffragettes in their campaign of arson and rioting occurred when a bomb which had been mailed to William Redmond, M. P., exploded while it was being handled in the post office sorting room.

Eleven clerks, one of them a woman, were seriously hurt by fragments of the bomb, and a dozen others were knocked down and stunned by the explosion.

Within half an hour after the details of the outrage had been flashed in extra editions of the newspapers, a mob of angry men and boys broke up a street meeting of suffragettes by stoning them. One woman was seriously injured in the fight between the assailants and the suffrage sympathizers.

300 REBELS ARE DROWNED

Mexicans Fleeing From Federals Die In Bay.

Tucson, Ariz., July 11.—A belated communication from Guaymas, in the hands of Mexican Consul Ainslie, says that 300 constitutional soldiers met death in an effort to swim across the bay when the state troops were repulsed by a hidden Huerta force in their attempt to enter the California gulf port.

The message says that General Ojeda, after his retreat to the federal base, arranged an ambush to surprise the pursuing constitutionalists and that 800 federals fell upon the state troops, who fled in disorder, leaving many dead and wounded behind. Oregon's men were celebrating what they believed to be the fall of Guaymas when the federals closed in upon them.

BANKER OPPOSES MONEY BILL

Chicagoan Hopes Measure Will Be Modified.

Duluth, Minn., July 11.—At the opening session of the Minnesota Bankers' association George M. Reynolds of Chicago made the principal address, his subject being the administration currency bill recently introduced in congress. He disavowed any intention of criticising the bill merely for the sake of criticism, but expressed the hope that discussion and analysis of it might result in its modification so as to make it conform to the needs of business and at the same time be fair to the banks.

This is the first meeting of a state association of bankers held since the provisions of the administration currency bill were announced.

Oakland, Cal., July 11.—Mrs. Anita Baldwin McClaughry, daughter of the late E. J. ("Lucky") Baldwin and beneficiary under his will to the amount of \$10,000,000 of his estate, was granted an interlocutory decree of divorce from Hull McClaughry on the ground of cruelty. McClaughry made no defense.

No New Clue to Lake Death.

Benton Harbor, Mich., July 11.—Lake Michigan still persists in holding the key to the mystery of the human foot which was washed ashore this week north of here. It is believed to be part of a body of some Chicago woman either accidentally drowned or possibly murdered. Search of the beach failed to bring to light any new clues which would serve to identify the victim.

GOMPERS CALLED IN LOBBY QUIZ

Congress to Probe All "Wars" Between Capital and Labor.

MULHALL TO TAKE STAND TODAY

Secrets of Great Strikes That Have Paralyzed Nations Industries Expected to Be Unfolded in Inquiry—Colonel Threatened.

Washington, July 11.—Congress has decided to investigate all the "wars" that have been fought between labor and capital, all the efforts that each has made to obtain legislation which would profit it and the tangled skein woven about their relations in the last ten years.

The senate lobby committee in executive session last night decided that the "wars" must be inquired into. Samuel Gompers, president of the American Federation of Labor, will appear before the committee on July 25, and a subpoena was issued last night for John Mitchell, vice-president of the federation and former head of the United Mine Workers. At the same time the committee subpoenaed George Pope and J. P. Bird, general manager of the National Association of Manufacturers.

As the tale is unfolded other men prominent in either labor organizations or associations of manufacturers or individual employers of labor who are brought to notice will be asked to appear. The committee decided to look into this subject, believing that it may develop startling information and knowing it will extend their inquiry many weeks.

Mulhall Is Threatened.

One senator said that the quest might reach back into some of the dark corners of the McNamara dynamiting cases and bring into the light the inside story of many of the great strikes that have paralyzed industries and thrown thousands out of work in the last few years. He intimated that it might develop by far the most marvelous of all the strange tales that the committee has heard in the past six weeks.

Coincident with the decision for a sweeping inquiry Chairman Overman of the lobby investigating committee heard a report that Martin M. Mulhall, chief lobbyist for the National Association of Manufacturers, had been told to get out of Washington.

Mulhall on Stand Today.

Colonel Mulhall, for ten years the field agent, lobbyist and strikebreaker whose undertakings have been set forth in the newspapers, is scheduled to make his appearance today to begin a repetition of his remarkable narrative, backed up by many thousands of letters, telegrams and reports.

The decision to put the colonel on the stand at once was inspired by two events which impressed Senator Overman and his colleagues with the necessity of beginning the investigation without delay. One of these was the business-like methods adopted by the Garret committee of the house to begin a far-reaching inquiry to determine the influences that have shaped legislation in the past, rewarded "friends" and punished "enemies" in congressional and official circles.

Witnesses Are Shadowed.

The other incident was the attempt to intimidate Colonel Mulhall and some of the other witnesses who have been subpoenaed by the government to give testimony at the hearing in the Mulhall charges. Some of these witnesses have been shadowed constantly during the last week by men who would be recognized in select gun circles in New York and in the stock yards quarter of Chicago. If the principals in these undertakings are discovered they will be brought before the Overman committee and punished. Senator Overman and his colleagues are determined that Colonel Mulhall shall receive the fullest protection, and have so assured him.

The plan of the investigation adopted by the senate committee after the conclusion of its inquiry into the activities of wool and sugar agents interested in the Underwood-Simmons tariff bill contemplate a direct statement from Colonel Mulhall at the very outset. Senator Reed of Missouri, who volunteered to take charge of the examination of the colonel, is preparing for the task before him, which, combined with the documents essential to the establishment of the facts as the colonel has described them, may consume the greater part of a week, and perhaps more.

The colonel is disinclined to go on the witness stand and start his testimony on Friday, and made a request of Senator Overman that it be deferred until next week.

CANINE AS SPONSOR

Admission to Society in New York Declared to Be Easier Now.

Woman With Social Aspirations May Obtain Entry by Possessing Dog—Routes Are Open to the Climbers.

New York.—Time was when breaking into New York society was a simple matter. You merely waited. Eventually, in the course of several generations, you stood a chance of being invited to the very best houses.

It was three generations before the Astors amounted to anything as social beings in this community, writes a New York correspondent. The Vanderbilts made the extraordinary leap in better time—in two generations—thanks to the mental resources and determination of a doughty social warrior whom the family acquired by marriage, and later lost by divorce.

People "get in" New York society now in a few years; sometimes in a single season.

Now a multiplicity of avenues of approach have been discovered. Here are ten: Dogs, women's clubs, publicity, charity, summer resorts, graft, the opera, first nights, travel (foreign), woman suffrage.

The avenue of dogs alone indicates the advance we have made. Some cynics may call it retrogression. How cruel when one can thus lessen the years necessary for a social entree!

Children used to be the avenue of approach, which has been usurped by the later pets.

One of the first moves of the socially ambitious woman in New York these days is the requirement of a dog.

If the proper beginning is made, the next step is to enter him at the first exclusive dog show. This may be done the very first year. And there the woman has her first social opportunity.

There are dog luncheons, dog dinners, dog receptions to which her canine will be invited, and no canine can go alone. The mistress must be included. Some day she may eventually be invited on her own account.

Another avenue for the social climber is the summer resort and foreign travel. In itself New York is a glacial city, socially. Its surfaces are so rounded that it must be a hardy climber who can secure a hold. This many have resolved to bring into the strategy of their campaign a flank assault on the citadel of caste.

They remove their artillery to a distance. They pay outrageous prices to the hotels in the fashionable resorts in summer and to the stopping places on the grand tour to Europe in the hope of thus scraping a valuable acquaintance.

Most of them fail. The average tenure of residence in New York of the wealthy women who come from elsewhere is seven years—the life of the chorus girl, of the yellow reporter and of the bounder tenant at Newport.

First they wear out the novelty of the theaters and the opera. Then, having been ignored, or, if too persistent, snubbed repeatedly, they move on to the American resorts in summer, to the European in winter, in the hope that they will find the social crust there less glacial.

Through this avenue a few—a very few—find the coveted entrance and many fail. The pensions of Naples, Florence, Rome, Vienna, Paris and Munich are filled with the wives and daughters of wealthy American men who have settled in New York from elsewhere.

LIKE PATRICK CASE

Mrs. Hetty Green Was Actor in Howland Will Affair.

Charge of Forgery Was Made—Fact That Signatures Were Identically Alike Alleged to Have Proved They Were Not Genuine.

New York.—Did you ever hear the story of Sylvia Ann Howland's will?

Mrs. Hetty Green, today's queen of finance, was one of the actors in this first great will case in America. The story is fifty years old, but it has dramatic interest because in certain features it is analogous to the case of Albert Patrick, recently pardoned from Sing Sing by Governor Dix. It was in the contest of the Howland case that handwriting experts were first used to effect before an American court. The next similar case was that of Millionaire Rice's will, in which Patrick appeared as claimant. It is worth noting that the methods of the handwriting experts seem not to have advanced measurably in half a century. They have been refined, perhaps, but otherwise they have been altered very little. Even in their differences the experts of today resemble those of 1863. Each is still able to demonstrate that the thinking apparatus of all the other side's experts have been clogged by blue mud.

Patrick owed his four times repeated death sentence to the handwriting experts. The state's case on his indictment for murder was technically weak. It rested on the confession of Valet Jones that he had chloroformed Rice at Patrick's orders. But the indictment was dramatically strong, because the experts proved conclusively that Rice's will had been forged. Each of the four pages of this document bore a signature which was presumably that of Rice.

The experts showed that these four signatures were identical—so admirably identical that when superimposed each fitted the other to the thickness of an eyelash. The experts contended that no two genuine signatures are ever just alike. They even found the true signature from which the four false ones had been traced, and found that on the day Rice was supposed to have signed the will he had signed five other documents. The five genuine signatures differed widely from each other and from the four forged ones.

Sylvia Ann Howland, an aged spinster, died in New Bedford, Mass., in 1863, leaving an estate of more than \$2,000,000. Two wills were produced. In the will of 1863 her niece and companion, Hetty Robinson, afterward known as Hetty Green, was generously remembered. By the will of 1860 Hetty Robinson inherited practically all. It consisted of a single page, marked "second page," inserted after the first page of an admittedly genuine earlier will. Miss Robinson testified that Miss Howland had dictated this "second page" to her in duplicate. Both pages were in Miss Robinson's writing, but each bore the signature of Miss Howland. The beneficiaries under the will of 1863 charged that the signatures on this duplicated "second page" had been forged by Miss Robinson. Every handwriting expert of note in the United States was engaged.

Through experts Miss Robinson met the contentions of the defense, point for point, statement for statement. She is supposed to have spent \$150,000 for counsel and experts, that being by far the greatest sum ever expended for such employment in an American law suit up to that time. In the end a compromise was reached. This compromise, according to the Law Reporter, "is understood to be the withdrawal of the complainant's appeal on payment of her expenses, costs and counsel fees, etc. The will of 1863 remains the will of Sylvia Ann Howland."

DOG IS HIS ALARM CLOCK

Bell Tied to Mongrel's Leg Rings Every Morning at Rising Time.

North Fairmont, O.—Samuel Forsythe believes he has the best dog on earth, as he does not need an alarm clock to awaken him in the morning in time for work. His dog, which is only a mongrel, does it for him. Forsythe says the plan has failed only once in two months.

By careful watching he found that the dog invariably awakened at about the same time as its master, so on retiring each night he tied a bell to one of the dog's legs. The dog on awakening rang the bell until released.

ROUMANIA'S ARMY INVADES BULGARIA

Bulgars Appeal to Powers to Arrange Terms After Failing to Split Enemy.

GREEKS CONTINUE IN PURSUIT

Berlin and Athens Hear General Ivanoff, With 50,000 Men, Has Surrendered, But Report Is Not Verified.

London, July 11.—King Charles of Roumania has formally declared war against Bulgaria, according to an official dispatch received here. The Roumanian minister at Sofia has been recalled.

A report from Vienna says Roumanian troops began to cross the Bulgarian frontier in the afternoon.

Rumors were published in Berlin and, according to the Daily Telegraph's correspondent at Athens, were current there, that General Ivanoff, with 50,000 Bulgarians, was forced to surrender near Demirhissar, where fighting was proceeding for the possession of a railway bridge over the Struma river.

Greeks Repulse Bulgars. A Salonika dispatch to the Times gives the substance of official dispatches, in which it is declared that a column of Bulgarians endeavoring to pass Petrich was repulsed by the Greeks, who captured 15 guns.

The Servian occupation of Radovich is confirmed, and the Bulgarian retreat from Istip therefore is cut off.

The end of a fortnight's desperate fighting in the Balkans finds Bulgaria forced to appeal to the powers to arrange peace.

Great Battle Is Reported.

Belgrade, July 11.—Reports are current that a great battle is raging around Kustendil, the result of which may have an important bearing on the campaign. It was known that the Servians had established themselves in the Osogovo mountains, whence they contemplated an advance into Bulgaria, but it is considered doubtful that the Servian commanders would attack Kustendil until they had permitted their troops to rest.

Late dispatches announce that the Servians, who were pursuing the Bulgarians from Istip, have occupied Radovich, where they came into contact with the Greek forces.

Bulgarians Are Routed.

Athens, July 11.—Official dispatches report the continued pursuit of the Bulgarians and a desperate battle in the passes of Mount Belissi and on the road from Dolran to Stramitsa, which resulted in complete victory for the Greeks and the rout of the Bulgarians. The capture of these passes was a disaster for the Bulgarians, because it enabled the Greeks to attack the rear of the Bulgarian Fourth army corps, which had its front fortified against the Servians.

BAR JOHNSON FROM HOTELS

Paris Hostels Refuse to Accommodate Fugitive Negro.

Paris, July 11.—"Jack" Johnson, negro pugilist, his wife and nephew arrived here. They went to the Grand hotel. The managers, however, expressed regret that there were no rooms available. The party first drove to the Ritz, which they found was also full. Then they went to the Elysee Palace hotel, where they were unable to find immediate accommodation. Johnson then went to the Bois de Boulogne and back to a hotel with the pleasing name of "Joli Sejour," with a similar result. The party then continued on to Neuilly. After a considerable stay there they returned to town again for a final stop at the Terminus hotel, near the railroad station.

Hayre, France, July 11.—Jack Johnson, the negro pugilist, arrived here and announced his determination never to return to the United States. He said he would in the future take up his residence in Paris.

FAMILY THEATRE
The Gray Trio, a refined and classy singing act, are heading the bill at this theatre, introducing several solo numbers, also songs in harmony and some original comic songs that are very pleasing. In fact, this act is one of the higher class, very seldom to be seen in Dixon.
Barry & Nelson are the adled attraction in a comedy acrobatic act. This couple are the hit of the bill, and delighted the whole audience, old and young, immensely. Mr. Barry with the clown makeup, is a great laugh producer and Miss Nelson with out a doubt is the cleverest acrobat ever seen at this theatre.

UNDERWORLD AS EXAMPLE

Archbishop Says Young People of Today Are Traveling the Wrong Road.

New Orleans—The underworld has become the exemplar of too many young people who should have for their patron Mary Immaculate, declared Archbishop Bleak in a sermon at the Jesuits' church recently, in which he scored modern dancing and social customs.

This spirit, he said, had resulted in such dances as the "grizzly bear," the "turkey trot," the "Gaby glide" and the "bunny hug."

"Has it come to this," asked the

archbishop, "that our beautiful society—our boasted civilization, nay, even our Christianity, should be banished to make room for the vile corruption freighted with the miasma of the underworld? I appeal to mothers and fathers, for the love of God, to set their faces against this outrage."

Liquor Gets Him at Last.

Dublin—"Mickey" Smith, a basket-maker and cattle drover, is dead at the age of 116. He drank heavily and smoked constantly. He married three times. He slept often in the open air and was able to work until three years ago.

The village board held the monthly meeting Monday evening and the bills were allowed for all the recent improvements and also the oiling of the streets. The city treasurer was drawn upon for balance due in expense of oiling and the citizens are to be complimented for their public spirit in contributing toward the improvement. Alderman F. L. Oester, who had charge of the work, should be complimented for his efforts and we believe should be up for re-election he would not have a vote cast against him. His work is prominent and he has taken great interest since becoming a member of the board of trustees. The entire board is doing noble work and the improvements this summer are beneficial and meets with the approval of all much to the satisfaction of the mayor and trustees.

Mr. and Mrs. Michael Barr visited here Tuesday.

The West Brooklyn Cornet band was on hand to take part in the celebration in Dixon the 4th of July according to contract and acquitted themselves with much credit. They were favored with a fine recommendation from the manager of the celebration and their musical ability praised. They are beginning to be recognized as the equal of any band in this or adjoining counties. The only trouble with the band here before was due to the size of the town they came from, leading people to believe we had some little country band worth about 10 cents.

After five years of hard work we have succeeded in displaying our ability. If every West Brooklynite will read the letter of recommendation for their last engagement they will all feel much pride over same and there will never be any more knockers in this vicinity.

C. P. Henkel and F. M. Bieschke clerks in the Meyer and Bieschke stores are enjoying a two weeks' vacation. They expect to spend part of the time in Chicago.

Albert and Jacob Barnickel of Compton were here on business on Tuesday.

Some of the land owners of the Swamps have requested us to ask why the bridge across the Middle Ditch was taken out two weeks ago and is still out, causing people living on the north side of the ditch much inconvenience in getting to West Brooklyn. The gentlemen living there would like to hear the explanation of the situation. Why was the bridge taken out two weeks ago and the dredge not down to it yet?

C. F. Guffin has purchased a Victoria Phaeton Franklin auto of the J. W. Thier agency and now we are safe in saying that Mr. Guffin has the finest run about in Lee County unless someone else has a car like his. His car attracts the admiration of all.

A large number from here attended the celebration in Dixon the 4th. They were all pleased to see the local band meeting with much success and being a big part of the day's celebration.

TENANTS HAVE UNION

New Yorker Will Ask Landlords to Remit Ten Per Cent.

Request Cut Until Expenses Are Less—Originator of Scheme Hopes to Aid Poor Families and Get a General Reduction.

New York.—A novel charity movement which proposes to assist 800,000 rent-paying families of New York in their struggle against the high cost of living has just been inaugurated by the Tenants' union.

The union, which is an organization devoted to the interests of rent-paying families of New York, plans to enlist the aid of the clergy in an effort to help the poor families of the city by having landlords remit ten per cent. of the rent until the high cost of living has been reduced.

As an opening gun in the movement the organization sent out letters to clergymen of all denominations, outlining the plan for securing a reduction in rent to tenants of moderate means and asking co-operation in enlisting the proposed army of landlord-philanthropists.

Whether or not the plan to obtain a general reduction of ten per cent. in the rentals of homes for families allied with the Tenants' union is successful, it is believed that the movement will tend to effect a reduction in favor of poorer families occupying tenements owned by some of the largest estates of New York.

The hope for this relies mainly on the effect which the co-operation of the clergy is expected to have with some of the wealthy tenement owners of the city.

As a step toward the solution of the problem of the high cost of living, Mayor Gaynor's market commission hopes to find some way of providing better terminal facilities for handling perishable produce.

It is estimated that under the present docking system there is an annual waste of \$200,000,000. This is demonstrated by the report of condemnation made by order of the New York board of health, showing that last year 8,500,000 pounds of fruit were destroyed, 2,500,000 pounds of vegetables, 73,000 pounds of eggs, 350,000 pounds of fish, and 95,000 pounds of miscellaneous market products. The condemnations made by the 100 inspectors of the health department represent but a small fraction of the real waste in the markets of the city.

"How long between periods?"

The poor fellow studied a moment, that he might answer correctly, and replied:

"About twenty minutes."—Kansas City Star.

ODD CIVIC SHOWS

Queer English Election Ceremonies Seldom Heard Of.

Water Is Drunk to the Memory of Sir Francis Drake—Perquisites of London's Mayor—One Sheriff Fined 50 Pounds for Insult.

London.—There are several towns in the united kingdom which boast an annual show day. London's lord mayor's show, so far as the procession is concerned, has no rival; but, nevertheless, the election of mayors of provincial towns is attended with functions both interesting and curious.

For instance, the annual election of the mayor of High Wycombe is not considered complete unless his worship is "weighed in." The mayor, as well as each member of the corporation, takes a seat on a pair of gigantic scales, and the result is entered in a big book kept at the town hall for the purpose. It is declared that the custom dates back to the reign of Edward I.

When a man reaches the mayorship of Plymouth he is supposed, according to an ancient custom, to pay at least one visit during his reign of office to the Lake of Burrator. When this function takes place the whole corporation turns out in all its finery, and, led by the mayor, journeys to the lake.

Arriving there, two lines are formed, and a couple of ancient golden goblets, filled with water taken from the lake, are passed round from mouth to mouth. The mayor and corporation drink to the memory of Sir Francis Drake, who, when mayor of Plymouth, brought water to the town by means of a canal more than twenty miles in length. When the water placed in the goblets is consumed the vessels are filled with wine, and the mayor, holding one at arm's length, exclaims: "May the descendants of him who gave us water never want wine!"

The visit to Burrator lake concludes with a feast, the first dish served being a sucking pig.

The mayor of Peterborough's show is held every October, and his worship and the members of the corporation make their way to Bridge Fair, and declare it open from the bridge spanning the river. The bridge unites two counties—Northamptonshire and Huntingdonshire—and the mayor, after adjuring all visitors to the fair to conduct themselves soberly and civilly, goes on to declare that "the fair may be held as well in Northamptonshire as in Huntingdonshire today, tomorrow and the day afterward."

A very ancient custom is the presenting to London's mayor and mayress every year a selection of pears, apples and grapes by the master of the Fruiterers' company and the general purposes committee of the city of London.

It is interesting to know that in earlier times the lord mayor of London was entitled to a proportion of the consignment of fruit arriving in the metropolis by ship. The action of this due caused a good deal of disagreement in days gone by, and it was finally arranged that a yearly presentation of fruit should be accepted in its place.

Ever since the days of William the Conqueror, the chief magistrate of the city has received four bucks from the Royal forests, while each sheriff has received three bucks, and the recorder, the common sergeant, the chamberlain and other city officials one each.

Since the title of lord mayor was bestowed on Sir Thomas Legge by Edward III, in 1354, the high office has carried with it all manner of titles and dignities. In early days he sometimes used his power to the disadvantage of those in office under him. For instance, Harrison, referring to the lord mayor for the year 1479, says:

"This year Thomas Byfield, one of the sheriffs of London, was fined £50 by the court of alderman for affronting the lord mayor, which arose from no other cause than his kneeling too near the mayor during prayers at St. Paul's cathedral."

Left a Few.

"I suppose," said the disgruntled young man when the producing manager handed back his play, "that you have stolen all my bright ideas."

"Oh, not all of them," the manager gravely replied. "I don't want to get so many bright ideas as to be considered supernatural."

Gossip.

"Some folks were highly excited when they heard the other day that young Charley Softed was caught kissing another man's wife."

"Good gracious! Who was the creature?"

"Don't get excited. It was his mother."

Low Grade of Knowledge.

"Did young Charlie Goldie call on you last night?"

"Yes, he calls almost every night."

"That sounds serious. What sort of young man is he—pretty intelligent?"

"Intelligent! Why, say, he doesn't know enough to embrace an opportunity."

Welcome Arrival.

"I don't think we had better lose any time about calling on our new neighbors," said Mrs. Mainchance.

"Why?" inquired her husband.

"I have watched them unload the moving van and they have a lot of things we will want to borrow."

MOPLAHS OF MALABAR COAST

Hill Tribe of Aborigines Are Fast Dying Out and Only a Few Hundred Left.

London.—This hill tribe of aborigines of the Malabar coast in southern India is very interesting. The men of the tribe wear cotton waist cloths, but the women wear skirts of teak leaves picked fresh from the jungle daily, as they have an idea that they will die if they wear ordinary clothing. A local magnate once persuaded some of the women to wear cotton clothing, but as some of them happened to die a short time afterwards this only served to strengthen their belief. The tribe is dying out and now only numbers a few hundred.

It must not be supposed, however, as is sometimes assumed, that the Tamils, and indeed all Dravidians, are

Aborigines of Malabar Coast.

a feeble people. Such is far from being the case as the late Dr. A. H. Keane pointed out in *Living Races of Mankind* (Hutchinson), and it can be shown that under capable leaders they have at all times displayed splendid fighting qualities. Clive's famous sepoys, with whom he laid the foundations of the Anglo-Indian empire, were recruited amongst the Madras peasantry. The famous Hyderabad contingent (Russell Brigade), served with great distinction under Wellesley against Tipoo Sultan in the Maharratta war of 1803; in suppressing the turbulent Pindaris of Berar; during the mutiny, when their valour and fine qualities were officially recognized; and in Burma, where they materially aided in pacifying the country (Major R. G. Burton). Lastly, the Moplah force from Malabar made a brave show at the Rawal Pindi review held by the Prince of Wales in 1905.

These Moplahs of the Malabar coast, continues Dr. Keane, are in many respects a "peculiar people." They appear to be a cross between Arab immigrants and the Tayars and other low castes, and although not numbering more than 600,000 or 700,000 form the most vigorous and energetic section of the Malabar natives. Those engaged in agriculture often resist the exactions of their Tayar landlords with the deliberate sacrifice of their lives.

CREW COMMITS HARA-KIRI

Six Japanese Sailors on British Bark Helmpate End Lives When Mikado Dies.

Rehavana, Java.—The British bark Helmpate, Captain Steers, arrived here from the north Borneo coast manned by an island crew of natives picked up by the skipper after his former crew, six Japanese, had committed hara-kiri upon the deck of the vessel after learning of the death and burial of the mikado.

Captain Steers says that he was proceeding from Polori island to Zamara on the Borneo coast to complete his cargo of copra when he was hailed by the British barkentine Clyde Town, from the master of which he received a number of items of news, among them being the information of the Japanese emperor's death and burial.

Without realizing what it might mean, Captain Steers gave the tidings to the men, and immediately they were as stricken, raving about the ship and engaging in loud lamentations. When he remonstrated with them for allowing the bark to drift aimlessly they threatened his life and he said no more to them until he saw them gathered on the deck, each with a knife in his hand and stomach bared. The captain thereupon realized what was about to happen and came forth from his cabin with a repeating rifle, but the men paid no heed to him and upon a signal each killed himself.

The Helmpate, the captain alone alive on board, drifted helplessly, but finally made Hadzona bay without serious injury, and here Captain Steers succeeded, after some days, in prevailing upon enough natives to man his ship and sail it to this port.

CLEAR CHESTNUT MYSTERY

Worm Girdles Tree and Stops Flow of Sap, Says Grower at Fleetwood, Pa.

Fleetwood, Pa.—William D. Becker, an extensive grower of chestnuts and peaches, of this town, says there is no such a thing as the chestnut blight, but that the chestnut trees are being killed by a small white worm, ranging in length from one-half to three-fourths of an inch and about one-eighth of an inch thick. This worm bores beneath the bark of the tree, leaving its excrement, which, when the limb or sapling is girdled, prevents the sap from ascending, and then the tree dies. Becker says he has been a close observer for a number of years and finds that this destructive worm nearly always begins its work at the trunk of the tree. He also claims that the reason so many die is the killing of woodpeckers by boys, who, as soon as they get a gun, begin to exterminate the most useful bird-guardian of the forest. He claims to know dozens of trees in his neighborhood where he can show how this worm does its ravages.

WANT TO REBUILD TRAIL

Young Mormons Will Ask Utah Legislature to Appropriate Fund to Improve Old Highway.

Salt Lake City, Utah.—A movement has been started here by the Mutual Improvement association, a young people's organization of the Mormon church, to induce the state legislature to appropriate sufficient money to improve the "old Mormon trail" from the point where it enters Utah to Salt Lake City and make it a part of the proposed trans-continental automobile highway. The route which the young Mormon people are seeking to have made into an automobile highway was the trail over which Brigham Young led his followers when they entered the Great Salt Lake valley in 1874.

Loaned Friends \$260,000. Kansas City, Mo.—An administrator's report of the estate of J. K. Zimmerman, a cattleman of Waco, Tex., who died in Excelsior Springs, Mo., on October 6, filed in the probate court here, values the estate at \$1,140,245. Administrators found that \$260,000 of this amount represented loans to Texas cattlemen in sums of \$5,000 to \$25,000, of which the only record kept was a penciled notation on a slip of paper. All were found to be gilt-edged.

ORDERS QUIZ OF ROAD

SENATE ASKS COMMERCE BODY TO PROBE N. Y. CENTRAL.

Resolution Directs an Investigation of Financial Operations by the Commission.

Washington, July 11.—An investigation by the interstate commerce commission of the financial operations of New York Central lines was proposed in a resolution adopted by the senate. This action was taken without debate when the resolution was introduced by Senator Norris of Nebraska.

The resolution if concurred in by the house would direct the commission first to investigate and report upon the issue by the New York Central and Hudson River Railway company of \$167,102,400 worth of four per cent mortgage bonds for the purpose of taking 3 1/2 per cent Michigan Central bonds amounting to \$19,336,000; 3 1/2 per cent Lake Shore & Michigan Southern bonds amounting to \$90,578,400, and New York Central four per cent debenture bonds amounting to \$97,188,000.

The commission would be asked to report whether the issue of the four per cent bonds for 3 1/2 per cents would not be an unwarranted and illegal capitalization of the railroads concerned, whether the purpose of the consolidation of the New York Central, the Lake Shore and Michigan Central would not be unwarranted and unlawful, and whether the increase in interest is necessary even if the consolidation is unobjectionable.

PRESIDENT WILSON GET LOST

Executive and Party in Auto Lose Way and Reach Home After Long Ride.

Cornish, N. H., July 11.—President Wilson got lost in the New Hampshire woods, finally reaching here an hour late for dinner, after the longest automobile ride of his visit here.

The president motored south along the Connecticut river for many miles, intending to make a wide circuit homeward, but got tangled up in the route. The president passed through a number of small towns, but made no stops except to inquire here and there as to the route home. Covered with mud, the big White House machine made the journey without mishap.

Raspberries

are about over. This week will see the last of the home grown. Michigan may last over next week. Prices do not look as though they will be any lower. In fact Michigan berries may be higher than home grown.

Gooseberries

and Currants will last a little longer. Early Cherries are about over and the late ones will be in their prime about the first of next week. Southern Peaches will be plenty in about a week or ten days. Real good Watermelons are here at about 35 to 40 cents.
